- A Projected enrollment for the 2014-15 school year based on forecasted enrollment.
- Positive values indicate numbers of students a facility is over state capacity / negative values indicate number of stduents a facility is under state capacity.
- State capacity indicates space. However due to the number of special programs, portable classrooms or other measures may be needed to accommodate the instructional needs of the school.
- ** Student yields are calculated annually based on geocode of enrolled FCS students in built-out developments within the high school zone in which the proposed development is located.
