TECHLINE 7 YEAR WARRANTY

Techline Sports Lighting, LLC will repair or replace any product shipped as part of our Sports Lighting System that proves to be defective for a period of seven years. This warranty covers the cost for both labor and material (excluding lamps) for the entire seven years.

Warranty guarantees light levels, system energy consumption, maintenance, and structural integrity. Techline Sports Lighting, LLC maintains specifically funded financial reserves to assure fulfillment of the warranty for the full term.

Any lamps that prove to be defective during the first year will be replaced at no charge. This includes both parts and labor.

This warranty excludes fuses, storm damage, vandalism, abuse and unauthorized repairs or alterations.

Project Name: Fellowship Christian School – Football Stadium
Roswell, GA

Effective Date: September 1, 2011

System Overview

EcoLink™ is a revolutionary two-way Wireless Controller and Remote Monitoring System. EcoLink is designed specifically to control, schedule, and monitor sports lighting systems and other lighting and electrical devices.

EcoLink™ multi-level scheduling and switching allows facility owners to easily reduce the site electrical energy consumption by 50% or more.

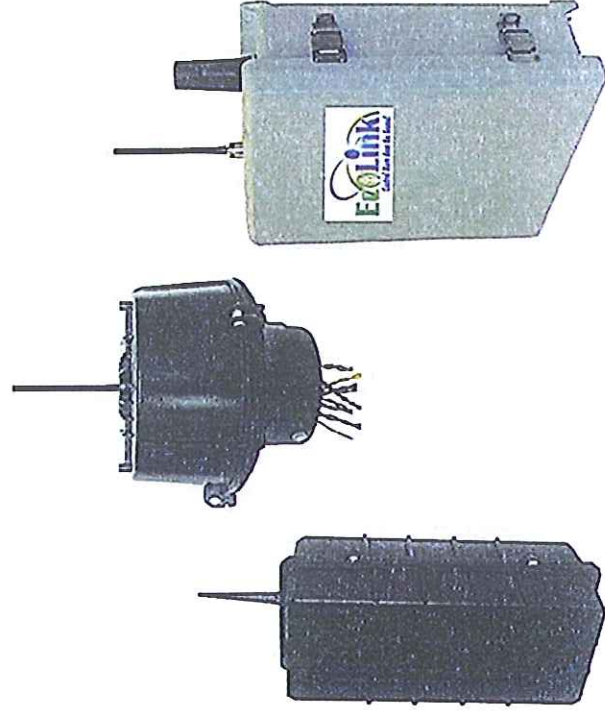

The EcoLink™ base station sends and receives central commands via a secure cellular connection to turn ON and OFF the selected lighting scenarios and schedules. Whether by website or smart phone; Facility owners / managers access the EcoLink™ System and truly...

Control More than the Game

Features

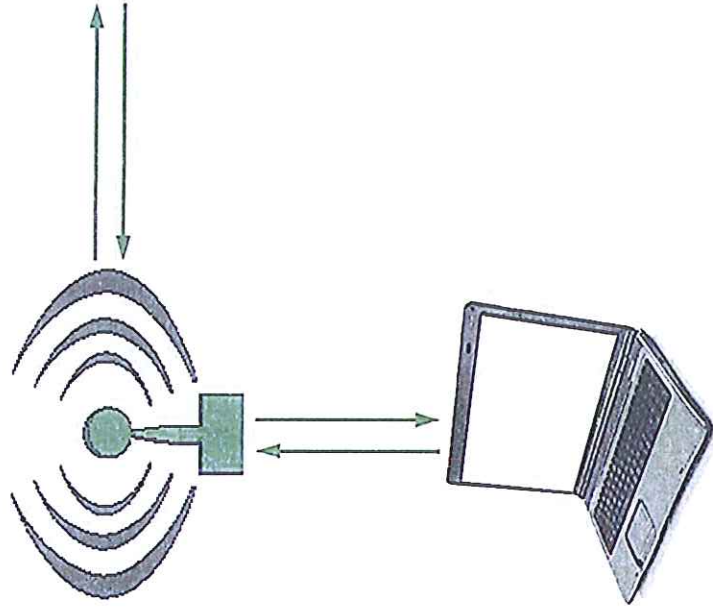

- Internet connection to secure customer dashboard
- The ability to design and apply different "scenes" to the fields. For example, users can construct scenes for maintenance, practice, scrimmage, and game day.
- Rotation of lamps and ballasts for even burn time wear-leveling.
- Real-time alert notifications of individual lamp or ballast outage.
- 24 x 7 x 365 support via Internet, E-mail, Smart Phone or Fax
- Historical data and energy consumption report
