The developer has resubmitted a revised plan; however, neither the original nor revised plan align with the guidelines in the City of Roswell's 2025 and 2030 Comprehensive Plans. The R3-A zoning and requested variances are INCONSISTENT with our surrounding neighborhoods. Details regarding each area of inconsistency will be addressed in a written submission from our subdivision. We are relying on all of you to support current residents in this area to maintain the aesthetic value and feel of this key corner of our city. Please vote against the requested rezoning.

Thank you for your consideration.

Respectfully,
