Ms. Deibel, Planner
City of Roswell Planning & Zoning Department
38 Hill Street
Roswell, Georgia 30075

RE: Wireless Facility Application to allow for the Location of Antennas and Related Equipment on the Rooftop of the Existing Building Located at 1110 Sanctuary Parkway, Roswell, Georgia

Dear Ms. Deibel:

On behalf of Verizon Wireless (VAW), LLC ("Verizon Wireless"), I respectfully request the City's approval of the proposed rooftop antenna mount on the existing building located at 1110 Sanctuary Parkway, Roswell, Georgia. Pursuant to the requirements of the applicable sections of the City of Roswell Zoning Ordinance, this Letter of Intent and attached Lease Exhibit provide extensive information on the proposed location of antennas and related equipment on the existing rooftop. In addition, this request will be supplemented with a Wireless Facility Application and Construction Design Package prior to the City Council meeting.

As provided in the Lease Exhibit attached hereto, Verizon Wireless intends to locate a total of twelve (12) antennas on the rooftop, with four (4) antennas on each of the three (3) skid mounts, and install a 12' x 20' equipment shelter adjacent to the existing penthouse located on the rooftop. The proposed antennas and equipment will be designed to blend in with the existing building and will not significantly change the current profile. Furthermore, the antennas will not be readily noticeable from the ground. Verizon Wireless has selected this site to ensure that increasingly relied upon wireless telecommunications service is provided in a safe and uniform

manner throughout this portion of the City of Roswell and the surrounding area. This portion of the City currently has inadequate coverage, resulting in frequently dropped calls or no service at all. This collocation will allow Verizon Wireless to provide improved coverage, including much-needed in-building coverage, to the office park and surrounding area.

Verizon Wireless certifies that the proposed antennas and equipment shelter will be maintained in a safe manner and in compliance with all applicable local, state, and federal laws, rules, and regulations. Verizon Wireless confirms that the proposed rooftop antenna mount is legally permissible, including, but not limited to the fact that Verizon Wireless is authorized to do business in the State of Georgia. As with all its facilities, Verizon Wireless will construct and operate this facility in accordance with all applicable Federal Communications Commission ("FCC") and Federal Aviation Administration ("FAA") regulations.

I appreciate your thoughtful consideration of this request, I encourage you to contact me should you have any questions or require any additional information, and I look forward to working with you on this important matter.

Very truly yours,

A handwritten signature in black ink, appearing to read "J. Blackburn", with a long, sweeping horizontal line extending to the right.
