Roswell Unveils Citizen Notification Service

**Register for
Nixle E-Alerts
Here**

The City of Roswell is launching a new citizen notification service that will deliver important and timely emergency and general information to the City's residents using the latest technology available.

What is Nixle?
The new notification service, NIXLE, will alert residents to emergency weather events, road closings, public safety advisories, natural and manmade disasters, and general city information through email and text messaging.

How Do I Sign Up?
NIXLE is free and is easy to register for through www.roswellgov.com. The button to sign up for the service is located on the right hand side of the City's homepage. Those who wish to register will need to create an account with a user name and password, enter an email address and/or cell phone number where you would like to receive the messages, and then enter your address. Click the "Sign Me Up" button to complete the registration.

Currently, residents who register will receive alerts for weather events, road closing, and public safety advisories. Roswell will eventually provide general City information through NIXLE.

Please note that your cell phone provider's text messaging rates will apply.
